SITE NAME: WOLF CREEK DAM
PSC CASE NUMBER: 2007-00483

UNIFORM APPLICATION: CONFIDENTIAL AND PROPRIETARY

Shared Towers, LLC. ("Shared Towers"), as ultimate owner, and American Cellular Corporation ("Provider") as a licensed public utility in the Commonwealth of Kentucky, hereinafter jointly referred to as "Applicants", respectfully submit their Application for a Certificate of Public Convenience and Necessity from the Public Service Commission to construct, maintain, and operate a Wireless Communications Facility ("WCF") to serve the customers of the Provider with wireless and telecommunications services, and other wireless service provider collocations in the area described herein.

In support of this Application, the Applicants respectfully provide and state the following information:

1. The complete names and addresses of the Applicants are:

Shared Towers, LLC., a West Virginia Limited Liability Company, having a mailing address of 1390 Chain Bridge Road #40, McLean, Virginia 22101 (703) 893-0806.

American Cellular Corporation, a Delaware Corporation, 3910 South Ave. Youngstown, OH 44512, 73134 having a local address of 124 South Keeneland Drive, Suite 1, Richmond, KY 40475, (606) 544-2355.

2. Shared Towers constructs, owns, manages, maintains, and operates independent communications networks. Shared Towers owns and manages safe, clean and well maintained facilities. Shared Towers facilities do not generate smoke, odors, noise, noxious gases, vibrations, or traffic increase. Shared Towers facilities will not pollute air, soil, or water, nor will they adversely affect radio or television reception or transmission. A certified copy of the Certificate of a Limited Liability Company issued by the Secretary of State of the State of West Virginia and a copy of the Certificate of Authorization which was issued by the Secretary of State of the Commonwealth of Kentucky for Shared Towers, LLC. are attached or described as part of **Exhibit A**. A copy of the Certificate of Authorization issued by the Secretary of State of the Commonwealth of Kentucky and a copy of the Certificate of Merger issued by the Secretary of State of the State of Delaware for the Provider are attached or described as part of **Exhibit B**.

3. After completion of the proposed WCF, Shared Towers will lease or license space on said tower and the surrounding site so the Provider may locate and operate its facility including all required antennas and appurtenances. The proposed WCF will serve an area completely within the Provider's Federal Communications Commission ("FCC")

licensed service area in the Commonwealth of Kentucky. The Provider is authorized to provide wireless service by the FCC and the PSC. A copy of the Provider's FCC license to provide wireless service is attached to this Application or described as part of **Exhibit C**. Shared Towers has located the proposed site in a manner such that other wireless communications service providers will desire to collocate on said tower, and will endeavor to provide all necessary facilities to make collocation attractive to them.

4. The public convenience and necessity require the construction of the proposed WCF. The construction of the WCF will bring the Provider's services to an area currently not served or not adequately served by the Provider and will thereby enhance the public's access to innovative and competitive wireless telecommunications services. The WCF will provide a necessary link in the Provider's telecommunications network that is designed to meet the increasing demands for wireless services in Kentucky's wireless communications licensed area. The WCF is an integral link in the Provider's network design that must be in place to cover the proposed service area.

5. Shared Towers' construction of the described WCF is desirable because it allows for the collocation of additional wireless service providers within this portion of the Kentucky wireless communications licensed area. These services may include telecommunications, wireless data transfer and internet services, wireless cable, paging systems, 911 service, and other new products currently being developed in the wireless industry. In addition, the WCF will be available for use by governmental agencies and providers of emergency services. The WCF will provide a necessary link in Shared Towers' and the Provider's wireless infrastructure networks, and Shared Towers, as part of its business structure, will diligently pursue and encourage other wireless providers to collocate on the WCF. These services will provide increased competition in the in the local

Kentucky telecommunications market, which will, in turn, promote competitive pricing, quality, and coverage options to users of telecommunications services in this area. Shared Towers' vested interest in the collocation of wireless service providers promotes the same goals for the local consumers.

6. The Applicants propose to construct a WCF at SR 127, Jamestown, Kentucky 42629 (36° 51' 35.43" North latitude, 85° 09' 36.91" West longitude). In an area located entirely within the county referenced in the caption of this application. The property on which the WCF will be located is owned by W.T Antle Estate. The proposed WCF will consist of a 280 foot guyed tower with an approximately 10-foot lightning arrester attached to the top, for a total height of 290 feet. The WCF will also include concrete foundations to accommodate the placement of the Provider's proprietary radio electronics equipment. The equipment will be housed in a prefabricated cabinet or shelter that will contain: (i) the transmitting and receiving equipment required to connect the WCF with the Provider's users in Kentucky, (ii) telephone lines that will link the WCF with the Provider's other facilities, (iii) battery back-up that will allow the Provider to operate even after a loss of outside power, and (iv) all other necessary appurtenances. The Provider's equipment cabinet or shelter will be approved for use in the commonwealth of Kentucky by the relevant building inspector. The WCF compound will be fenced and all access gate(s) will be secured. A description of the manner in which the proposed WCF will be constructed is attached as **Exhibit D** and **Exhibit E**. Periodic inspections will be performed on the WCF in accordance with the applicable regulations or requirements of the PSC. The list of competing utilities, corporations, or persons is attached as **Exhibit F**.

7. Reduced copies of the site development plan have been included as **Exhibit D** and **Exhibit E** of this application. A vertical profile sketch of the WCF signed and sealed

by a professional engineer registered in Kentucky depicting the tower height, as well as a proposed configuration for the antennas of the provider and future antenna mounts, has also been included as part of **Exhibit E**. Foundation design plans and a description of the standards according to which the tower was designed signed and sealed by a professional engineer registered in Kentucky is included as part of **Exhibit D**.

8. The Applicants have considered the likely effects of the installation of the proposed WCF on nearby land uses and values and have concluded there is no more suitable location reasonably available from which adequate services can be provided, and that there are no reasonably available opportunities to collocate. The Applicants have attempted to collocate on suitable existing structures such as telecommunications towers or other suitable structures capable of supporting the Provider's facilities. No other suitable and available collocation site was found to be located in the vicinity of the site. Information regarding the Applicants' efforts to achieve collocation in the vicinity are presented as **Exhibit G**.

9. The Applicants have conducted a preliminary aeronautical evaluation for the proposed WCF. The evaluation determined that the proposed structure height at this site meets Federal Aviation Administration ("FAA") Regulation requirements. Furthermore, FAA notice is required for the proposed construction, and lighting or marking requirements may be applicable to this facility. A copy of the FAA Application is attached as **Exhibit H**. Upon receiving a "Determination" from the FAA, the Applicants will forward a copy as a supplement to this Application Proceeding

10. A copy of the Kentucky Airport Zoning Commission ("KAZC") Application for the proposed WCF is attached as **Exhibit I**. Upon receiving authorization from the KAZC,

the Applicants will forward a copy of the determination as a supplement to this Application Proceeding

11. The WCF will be registered with the FCC pursuant to applicable federal requirements. Appropriate required signage will be posted on this site upon receipt of the tower registration number.

12. A geotechnical-engineering firm has performed soil boring(s) and subsequent geotechnical-engineering studies at the WCF site under the supervision of a professional engineer registered in the Commonwealth of Kentucky who specializes in geotechnical engineering, including subsurface exploration. The geotechnical-engineering firm has performed many such studies for the communications industry. A copy of the geotechnical-engineering report and evaluation signed and sealed by a professional engineer registered in the Commonwealth of Kentucky who specializes in geotechnical engineering, including subsurface exploration, is attached as **Exhibit J**. The name and address of the geotechnical-engineering firm and the professional engineer registered in the Commonwealth of Kentucky who supervised the examination of this WCF site are included in **Exhibit J**.

13. Clear directions to the proposed WCF site from the County seat are attached as **Exhibit K**. The name and address of the preparer of **Exhibit K** is included in **Exhibit K**.

14. Shared Towers, pursuant to a written agreement, has acquired the right to use the WCF site and associated property rights. A copy of the agreement or an abbreviated agreement recorded with the County Clerk is attached as **Exhibit L**. Also included as part of **Exhibit L** is the portion of the full agreement demonstrating that in the case of abandonment a method is provided to dismantle and remove the cellular antenna tower .

15. Personnel directly responsible for the design and construction of the proposed WCF are well-qualified and experienced. Nello Corporation (the Tower Manufacturer) performed the tower and foundation design. The Tower Manufacturer is a nationally recognized manufacturer and designer of communication towers. The Tower Manufacturer has designed and installed communications towers throughout North America. The Tower Manufacturer has assigned Dan Ianello and/or Dennis Abel, both professional engineers registered in the commonwealth of Kentucky, to design the Tower for the WCF. Both engineers specialize in the design and engineering of guyed, self support and monopole structures, and have extensive experience in the design and construction of projects similar to the Applicants'. These projects include the design of towers and the required foundations of many other wireless facilities. All of the designs have been/will be signed and sealed by Dan Ianello and/or Dennis Abel. The construction of the proposed WCF will be performed by Shared Towers or their agents who are insured and experienced tower erection specialists. The Project Manager, David Jantzi, will manage the construction of the WCF and the tower erection. David has been erecting towers for the telecommunications industry for over 15 years. All tower designs will meet or exceed applicable laws and regulations.

16. Based on a review of Federal Emergency Management Agency Flood Insurance Rate Maps, the registered land surveyor has certified in **Exhibit M** that the proposed WCF is not located within any flood hazard area.

17. The possibility of high winds has been considered in the design of this tower. The tower has been designed and engineered by professional engineers using computer assistance and the same accepted codes and standards as are typically used for high-rise building construction. The tower has been designed to withstand a wind loading of 70

m.p.h. with ½ inch of radial ice. This tower has been designed in accordance with the Electronic Industries Association (“EIA”) 222-F 1996 Standards, which have been accepted and approved by ANSI and is a nationally recognized tower design standard. Similarly, the proposed WCF design has been developed with consideration of potential ground shaking based on a negligible seismic zone of 1. Seismic loading is regarded as secondary to the wind loading.

18. The site development plan signed and sealed by a professional engineer registered in Kentucky was prepared by David B. Sharp, and was designed from a survey performed by Mike McKinney. This site development plan is drawn to a scale of no less than one (1) inch equals 200 feet, and identifies every owner of real estate within 500 feet of the proposed tower (according to the Property Valuation Administrator) and is incorporated in the survey as part of **Exhibit E**. Every structure and every easement within 500 feet of the proposed tower or within 200 feet of the access road including intersection with the public street system is incorporated in the survey as part of **Exhibit E**.

19. Shared Towers, on behalf of itself and the Provider, has notified every person who owns property within 500 feet of the proposed tower by certified mail, return receipt requested, of the proposed construction. Each property owner has been informed of their right to request intervention. A list of the nearby property owners who received the notices, together with copies of the certified letters, are attached as **Exhibit N** and **Exhibit O**, respectively.

20. Shared Towers, on behalf of itself and the Provider, has notified the Russell County Judge Executive by certified mail, return receipt requested, of the proposed construction. This notice informed the Russell County Judge Executive of his/her right to request intervention. A copy of this notice is attached as **Exhibit P**.

21. Two appropriate notice signs measuring at least two (2) feet in height and four (4) feet in width with all required language in letters of required height have been posted in a visible location on the proposed site and on the nearest public road and shall remain posted for at least two (2) weeks after filing of the Application. Copies of the postings are attached as **Exhibit Q**. The location of the proposed facility has been published in a newspaper of general circulation in the county where the WCF is located.

22. The general character of the area in which the WCF is proposed is heavily wooded and the existing land use of the specific property involved is a woodlot. The property where WCF is proposed to be constructed not zoned.

23. The process that was used in selecting the site for the proposed WCF by the Applicants' radio frequency engineers was consistent with the process used for selecting generally all other existing and proposed WCF facilities within the proposed network design area. Before beginning the acquisition process, the Applicants carefully evaluated the location of the required WCF for possible collocation opportunities on existing structures. Radio Frequency Engineers used computer programs to evaluate the most effective coverage design for facilitating collocation potential on the proposed tower. Shared Towers and the Provider's radio frequency engineers have combined their efforts in order to develop a highly efficient network that is designed to serve the Federal Communications Commission licensed territory without extending beyond the Provider's approved boundary. The engineers selected the optimum vicinity in terms of elevation and location to provide the best quality service to customers in the service area. A proposed coverage area was considered by the Applicants when searching for sites that would provide both (i) the coverage deemed necessary by the Provider, and (ii) the coverage deemed necessary by Shared Towers to permit the integration of the proposed WCF into Shared Towers' overall

network design. No suitable towers or existing structures were found in the immediate area which would meet the technical requirements for this element of the telecommunications network. A map of the area in which the tower is proposed to be located which is drawn to scale and clearly depicts the necessary search area within which the site, pursuant to radio frequency requirements, be located is attached as **Exhibit R**.

24. A grid map showing the location of all existing cellular antenna towers that includes the general position of proposed construction sites for new cellular antenna towers within the Commission's jurisdiction and one-half mile outside the boundary of the planning unit's jurisdiction if that area contains either existing or proposed construction sites for cellular antenna towers is attached as **Exhibit S**.

25. All Exhibits to this application are hereby incorporated by reference as if fully set out as part of the Application.

26. All responses and requests associated with this Application may be directed

to:

David Jantzi

FOURTH RESTATED CERTIFICATE OF INCORPORATION

OF

AMERICAN CELLULAR CORPORATION

It is hereby certified that:

1. (a) The present name of the corporation (hereinafter called the "Corporation") is American Cellular Corporation;

(b) The name under which the Corporation was originally incorporated is PriCellular Corporation, and the date of filing the original Certificate of Incorporation of the Corporation with the Secretary of State of the State of Delaware is February 21, 1990.
2. The Certificate of Incorporation of the Corporation is hereby amended by striking out Section 6 of Article V thereof and by substituting in lieu thereof a new Section 6 of Articles V which is set forth in the Fourth Restated Certificate of Incorporation hereinafter provided for.
3. The provisions of the Certificate of Incorporation of the Corporation as heretofore amended and/or supplemented, and as herein amended, are hereby restated and integrated into the single instrument which is hereinafter set forth, and which is entitled Fourth Restated Certificate of Incorporation of American Cellular Corporation without any further amendments other than the amendments herein certified and without any discrepancy between the provisions of the Certificate of Incorporation as heretofore amended and supplemented and the provisions of the said single instrument hereinafter set forth.
4. The amendment and the restatement of the Certificate of Incorporation herein certified have been duly adopted by the stockholders in accordance with the provisions of Sections 228, 242, and 245 of the General Corporation Law of the State of Delaware.
5. The Certificate of Incorporation of the Corporation, as amended and restated herein, shall at the effective time of this Fourth Restated Certificate of Incorporation, read as follows:

ARTICLE I

The name of the corporation (the "Corporation") is:

American Cellular Corporation

ARTICLE II

The address of its registered office in the State of Delaware is 1013 Centre Road, in the City of Wilmington, County of New Castle, 19805. The name of its registered agent at such address is Corporation Service Company.

ARTICLE III

The nature of the business or purposes to be conducted or promoted is to engage in any lawful act or activity for which corporations may be organized under the General Corporation Law of Delaware.

ARTICLE IV

The total number of shares of stock which the Corporation shall have authority to issue is five million five hundred thousand (5,500,000), of which five hundred thousand (500,000) shall be Common Stock, \$.01 par value, and five million (5,000,000) shall be Preferred Stock, \$.01 par value. Four hundred seventy-five thousand (475,000) shares of Common Stock shall be designated voting Class A Common Stock, and twenty-five thousand (25,000) shares of Common Stock shall be designated non-voting Class B Common Stock.

All shares of Class A Common Stock and Class B Common Stock shall be identical in every respect, except that the non-voting Class B Common Stock shall carry no right to vote for the election of directors, and no right to vote on any matter presented to the stockholders for their vote or approval, except only as the laws of the State of Delaware shall require that voting rights be granted to such non-voting shares.

Shares of Class B Common Stock shall be convertible into shares of Class A Common Stock on a one-for-one basis, subject to appropriate adjustment to reflect any stock split, reverse stock split, stock dividend or other similar change in the Class A Common Stock or Class B Common Stock.

The Board of Directors is authorized, subject to limitations prescribed by law and the provisions of this Article IV, to provide for the issuance of the shares of Preferred Stock in series, and by filing a certificate pursuant to the applicable law of the State of Delaware, to establish from time to time the number of shares to be included in each such series, and to fix the designation, powers, preferences and rights of the shares of each such series and the qualifications, limitations or restrictions thereof.

The authority of the Board with respect to each series shall include, but not be limited to, determination of the following:

- (a) The number of shares constituting that series and the distinctive designation of that series;
- (b) The dividend rate on the shares of that series, whether dividends shall be cumulative, and, if so, from which date or dates, and the relative rights of priority, if any, of payment of dividends on shares of that series;
- (c) Whether that series shall have voting rights, in addition to the voting rights provided by law, and, if so, the terms of such voting rights;
- (d) Whether that series shall have conversion privileges, and, if so, the terms and conditions of such conversion, including provision for adjustment of the conversion rate in such events as the Board of Directors shall determine;
- (e) Whether or not the shares of that series shall be redeemable, and, if so, the terms and conditions of such redemption, including the date or dates upon or after which they shall be redeemable, and the amount per share payable in case of redemption, which amount may vary under different conditions and at different redemption dates;
- (f) Whether that series shall have a sinking fund for the redemption or purchase of shares of that series, and, if so, the terms and amount of such sinking fund;
- (g) The rights of the shares of that series in the event of voluntary or involuntary liquidation, dissolution or winding up of the Corporation, and the relative rights of priority, if any, of payment of shares of that series; and
- (h) Any other relative rights, preferences and limitations of that series.

Dividends on outstanding shares of Preferred Stock shall be paid or declared and set apart for payment before any dividends shall be paid or declared and set apart for payment on the common shares with respect to the same dividend period.

If upon any voluntary or involuntary liquidation, dissolution or winding up of the Corporation, the assets available for distribution to holders of shares of Preferred Stock of all series shall be insufficient to pay such holders the full preferential amount to which they are entitled, then such assets shall be distributed ratably among the shares of all

series of Preferred Stock in accordance with the respective preferential amounts (including unpaid cumulative dividends, if any) payable with respect thereto.

ARTICLE V

The Corporation hereby designates the following series of Preferred Stock, which series shall have the voting powers, preferences and relative, participating, optional and other special rights of the shares of such series, and the qualifications, limitations or restrictions thereof as set forth below in this Certificate:

Section 1. DESIGNATION AND AMOUNT.

The shares of such series shall be designated as the "Series A Preferred Stock" (the "Series A Preferred Stock") and the number of shares initially constituting such series shall be 3,250,000, which number may be decreased (but not increased) by the Board of Directors without a vote of stockholders; PROVIDED, HOWEVER, that such number may not be decreased below the number of then currently outstanding shares of Series A Preferred Stock. The "Stated Value" per share of the Series A Preferred Stock shall be equal to \$100.

Section 2. DIVIDENDS AND DISTRIBUTIONS.

(a) The holders of shares of Series A Preferred Stock, in preference to and in priority over the holders of shares of any stock of the Corporation ranking junior to the Series A Preferred Stock with respect to the payment of dividends or the distribution of assets, whether upon liquidation, dissolution, winding up or otherwise ("Junior Stock"), shall be entitled to receive, when and as declared by the Board of Directors, out of funds legally available for the payment of dividends, dividends on the Series A Preferred Stock, which shall accrue on a daily basis (computed on the basis of a 360-day year of twelve 30-day months) at the rate per annum of twelve percent (12.0%), compounded quarterly, on the Stated Value (plus all accrued or accumulated but unpaid dividends) of each share of Series A Preferred Stock from the date of original issuance thereof until the redemption of the Series A Preferred Stock pursuant to Section 3 hereof.

(b) Dividends shall accrue and be cumulative whether or not they have been declared and whether or not there are profits, surplus or other funds of the Corporation legally available for the payment of dividends. Dividends shall be payable quarterly, in arrears, on the last day of each December, March, June and September (each, a "Dividend Payment Date"). The amount of dividends payable on each Dividend Payment Date shall be determined by applying the rate specified in Section 2(a) from but excluding the immediately preceding Dividend Payment Date (or from but excluding the date of issuance of shares of Series A Preferred Stock with respect to the first dividend period) to and including the Dividend Payment Date. Dividends shall be paid in cash. If the payment date does not occur on a regular Dividend Payment Date, dividends shall be calculated on the basis of the actual number of days elapsed from but excluding the immediately preceding Dividend Payment Date to and including the redemption date or such final distribution date.

(c) To the extent dividends are not paid on a Dividend Payment Date, all dividends which shall have accrued on each share of Series A Preferred Stock outstanding as of such Dividend Payment Date shall be accumulated dividends.

(d) Dividends payable on each Dividend Payment Date shall be paid to the record holders of the shares of Series A Preferred Stock as they appear on the books of the Corporation at the close of business on the 10th Business Day immediately preceding the respective Dividend Payment Date or on such other record date as may be fixed by the Board of Directors of the Corporation in advance of a Dividend Payment Date, provided that no such record date shall be less than ten (10) not more than sixty (60) calendar days preceding such Dividend Payment Date. For purposes hereof, "Business Day" means any day other than a Saturday, Sunday, or a day on which commercial banks in the City of New York are authorized or obligated by law or executive order to close.

(e) Each fractional share of Series A Preferred Stock outstanding shall be entitled to a ratably proportional amount of all dividends accruing with respect to each outstanding share of Series A Preferred Stock, and all such dividends with respect to such outstanding fractional shares shall be fully cumulative and shall accrue, whether or not declared, and shall be payable in the same manner and at such times as provided herein with respect to dividends on each outstanding share of Series A Preferred Stock.

(f) All dividends paid with respect to shares of Series A Preferred Stock pursuant to Section 2(a) shall be paid pro rata to the holders entitled thereto.

(g) So long as any shares of Series A Preferred Stock are outstanding,

(i) No dividend or other distribution shall be declared or paid, or set apart for payment on or in respect of, any Junior Stock, either directly or indirectly, whether in cash obligations, shares of the Corporation or other property (other than dividends or distributions payable in shares of Junior Stock or in rights to purchase Junior Stock), nor shall any Junior Stock, or any warrants, rights, calls or options exercisable for or convertible into any Junior Stock, be redeemed, purchased, retired or otherwise acquired for any consideration (or any money be paid to a sinking fund or otherwise set apart for the purchase or redemption of any such Junior Stock or any warrants, rights, calls or options exercisable for or convertible into any Junior Stock), unless as of such date the Corporation has paid all dividends accrued and payable to date on the Series A Preferred Stock in full and paid all amounts due in respect of its redemption obligations under Section 3, provided that notwithstanding the foregoing, the Company may effect purchases or redemptions pursuant to employee stock subscription agreements with officers and key employees of the Corporation and its subsidiaries.

(ii) No shares of Series A Preferred Stock shall be redeemed, purchased or otherwise acquired for any consideration (or any money be paid to a sinking fund or otherwise set apart for the purchase or redemption of any such Series A Preferred Stock) by the Corporation unless (A) the full cumulative dividends on all outstanding shares of Series A Preferred Stock shall have been or contemporaneously are declared and paid for all dividend periods terminating on or prior to the date on which such redemption, purchase or other payment is to occur, or (B) all shares of Series A Preferred Stock are simultaneously redeemed as provided in Section 3 hereof.

Section 3. REDEMPTION.

(a) The Corporation shall have the right, at its sole option and election, to redeem outstanding shares of Series A Preferred Stock, in whole or in part (pro-rata among the outstanding shares of Series A Preferred Stock) at any time; PROVIDED, HOWEVER, that the Corporation shall not optionally redeem less than \$5,000,000 in the aggregate of the stated amount of shares of Series A Preferred Stock at any one time.

(b) On September 30, 2008, the Corporation shall redeem one-third of the shares of Series A Preferred Stock then outstanding. On September 30, 2009, the Corporation shall redeem one-half of the shares of Series A Preferred Stock then outstanding. On September 30, 2010, the Corporation shall redeem all remaining shares of Series A Preferred Stock then outstanding.

(c) The redemption price per share for Series A Preferred Stock redeemed on any optional or mandatory redemption date (the "Redemption Price") shall be equal to the Stated Value per share of the shares to be redeemed plus an amount equal to the aggregate dollar amount of all accrued or accumulated and unpaid dividends through the redemption date. The Redemption Price shall be paid in cash from any source of funds legally available therefor.

(d) Not less than thirty (30) nor more than sixty (60) days prior the redemption date, a notice specifying the time and place of such redemption shall be given by *first class mail, postage prepaid*, to the holders of record of the shares of Series A Preferred Stock to be redeemed at their respective addresses as the same shall appear on the books of the Corporation (but no failure to mail such notice or any defect therein shall affect the validity of the proceedings for redemption except as to the holder to whom the Corporation has failed to mail such notice or except as to the holder whose notice was defective), calling upon each such holder of record to surrender to the Corporation on the redemption date at the place designated in such notice such holder's certificate or certificates representing the then outstanding shares of Series A Preferred Stock held by such holder called for redemption. On or after the redemption date, each holder of shares of Series A Preferred Stock called for redemption shall surrender his certificate or certificates for such shares to the Corporation at the place designated in the redemption notice and shall thereupon be entitled to receive payment of the Redemption Price in the manner set forth in Section 3(c) above. If the redemption is delayed for any reason, dividends shall continue to accrue on the shares of Series A Preferred Stock, and shall be added in and become a part of the Redemption Price of such shares, until the Redemption Price, as so adjusted, for such shares is paid in full.

Section 4. REACQUIRED SHARES. Any shares of Series A Preferred Stock converted, redeemed, purchased or otherwise acquired by the Corporation in any manner whatsoever shall be retired and canceled promptly after the acquisition thereof, and, if necessary to provide for the lawful redemption or purchase of such shares, the capital represented by such shares shall be reduced in accordance with the General Corporation Law of the State of Delaware. All such shares upon their cancellation become authorized but unissued shares of Preferred Stock, par value \$.01 per share, of the Corporation and may be reissued as part of another series of Preferred Stock, par value \$.01 per share, of the Corporation.

Section 5. LIQUIDATION, DISSOLUTION OR WINDING UP.

(a) If the Corporation shall adopt a plan of liquidation or of dissolution, or commence a voluntary case under the Federal bankruptcy laws or any other applicable state or Federal bankruptcy, insolvency or similar law, or consent to the entry of an order for relief in any involuntary case under any such law or to the appointment of a receiver, liquidator, assignee, custodian, trustee or sequestrator (or similar official of the Corporation) or of any substantial part of its property, or make an assignment for the benefit of its creditors, or admit in writing its inability to pay its debts generally as they become due, or if a decree or order for relief in respect of the Corporation shall be entered by a court having jurisdiction in the premises in an involuntary case under the Federal bankruptcy laws or any other applicable Federal or state bankruptcy, insolvency or similar law, or appointing a receiver, liquidator, assignee, custodian, trustee, sequestrator (or other similar official) of the Corporation or of any substantial part of its property, or ordering the winding up or liquidation of its affairs, and any such decree or order shall be unstayed and in effect for a period of 90 consecutive days and on account of such event the Corporation shall liquidate, dissolve or wind up, or upon any other liquidation, dissolution or winding up of the Corporation, no distribution shall be made to the holders of shares of Junior Stock, unless prior thereto, the holders of shares of Series A Preferred Stock shall have received in cash the Stated Value per share in respect of all outstanding shares plus all accrued or accumulated but unpaid dividends thereon to and including the date fixed for such liquidation

(b) No payment on account of any such liquidation, dissolution or winding-up of the Corporation shall be paid to any holder of shares of Series A Preferred Stock unless there shall be paid at the same time to all holders of shares of Series A Preferred Stock proportionate amounts determined ratably in proportion to the full amounts to which the holders of all outstanding shares of Series A Preferred Stock are respective entitled with respect to such distribution.

(c) After payment of the full amount of the liquidation preference to which the holders of shares of Series A Preferred Stock are entitled under Section 5(a), such holders will not be entitled to any further participation in any distribution of assets of the Corporation

(d) Written notice of any liquidation, dissolution or winding-up of the Corporation, stating the payment date or dates when and the place or places where the amounts distributable in such circumstances shall be payable, shall be given by first class mail, postage prepaid, not less than fifteen (15) days prior to any payment date stated therein, to the holders of record of the shares of Series A Preferred Stock at their respective addresses as the same shall appear in the records of the Corporation.

(e) Any voluntary sale, conveyance, exchange or transfer of all or substantially all of the property or assets of the Corporation or the consolidation or merger of the Corporation with or into one or more other corporations in which the holders of capital stock of the Corporation entitled to vote in the election of directors prior to the consummation of such event own less than 50% of the capital stock of the surviving corporation entitled to vote in the election of directors shall be deemed to be a liquidation, winding-up or dissolution of the Corporation, and the only amounts payable

to the holders of the Series A Preferred Stock upon any such consolidation, merger or sale of the Corporation shall be the *liquidation preference* set forth in Section 5(a).

Section 6. INFORMATION RIGHTS.

The Corporation will furnish to each person who, together with its affiliates, holds shares of Series A Preferred Stock having an aggregated Stated Value of at least \$5,000,000 the following reports:

(a) As soon as practicable after the end of each fiscal year, and in any event within ninety (90) days thereafter, audited consolidated balance sheets of the Corporation as of the end of such fiscal year, and consolidated statements of income and cash flows of the Corporation for such year, prepared in accordance with generally accepted accounting principles and setting forth in each case in comparative form the figures for the previous fiscal year, all in reasonable detail and certified by independent public accountants of national standing selected by the Corporation.

(b) As soon as practicable, but in any event within forty-five (45) days after the end of each of the first three (3) quarters of each fiscal year of the Corporation, unaudited balance sheets of the Corporation as of the end of each such quarter, and consolidated statements of income and cash flows of the Corporation for each such quarter, all prepared in accordance with generally accepted accounting principles.

(c) As soon as practicable after the end of each month, selected monthly financial information concerning the Corporation, including a detailed statement of revenues and expenses and other subscriber, capital expenditure and relevant system information.

(d) At least ten (10) days prior to submission thereof to the Corporation's Board of Directors for approval, the Company's budget and operating plan (including projected balance sheets and profit and loss and cash flow statements) for each fiscal year.

Section 7. VOTING.

Except as otherwise required by law, holders of shares of Series A Preferred Stock shall have no voting rights; PROVIDED HOWEVER, that so long as any of the Series A Preferred Stock is outstanding, the Corporation will not authorize, create or issue, or increase the authorized or issued amount of, any class or series of stock (or any security convertible or exchangeable therefor) ranking senior to or *pari passu* with the Series A Preferred Stock with respect to dividends or liquidation preference or reclassify or modify any Junior Stock such that it ranks senior to or *pari passu* with the Series A Preferred Stock with respect to dividends or liquidation preference without the affirmative vote or consent of the holders of at least 66-2/3% of the shares of Series A Preferred Stock then outstanding, voting as a separate class (given in person or by proxy, either in writing or by resolution adopted at a special meeting called for the purpose); and PROVIDED FURTHER, HOWEVER, that the Corporation will not amend, alter or repeal any of the provisions applicable to the Series A Preferred Stock set forth in its Certificate of Incorporation or in this Certificate so as to change adversely (i) the dividend payable therein, (ii) the amount payable thereon upon liquidation or redemption or (iii) the mandatory redemption provisions applicable thereto, without the affirmative vote or consent of all holders of shares of Series A Preferred Stock then outstanding, voting as a separate class (given in person or by proxy, either in writing or by resolution adopted at a special meeting called for the purpose).

Each share of Series A Preferred Stock shall have one vote, and each fractional share shall have a corresponding fractional vote

ARTICLE VI

In furtherance and not in limitation of the powers conferred by statute, the Board of Directors is expressly authorized to adopt, amend or repeal the By-laws of the Corporation.

ARTICLE VII

Election of directors need not be by written ballot unless the By-laws of the Corporation shall so provide.

ARTICLE VIII

Section 1. DIRECTOR'S LIABILITY. A director of the Corporation shall not be personally liable to the Corporation or its stockholders for monetary damages for breach of fiduciary duty as a director to the fullest extent permitted by Delaware Law.

Section 2. RIGHTS OF INDEMNIFICATION AND PAYMENT OF EXPENSES.

(a) Each person (and the heir's, executors or administrators of such person) who was or is made a party or is threatened to be made a party to or is involved in any threatened, pending or completed action, suit or proceeding, whether civil, criminal, administrative or investigative (hereinafter a "proceeding"), by reason of the fact that he or she, or a person of whom he or she is a legal representative, is or was a director, officer, employee or agent of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to employee benefit plans, whether the basis of such proceeding is alleged action in an official capacity as a director or officer of the Corporation or is or was serving at the request of the Corporation as a director, officer, employee or agent shall be indemnified and held harmless by the Corporation to the fullest extent authorized by the Delaware General Corporation Law, as the same exists or may hereafter be amended (but, in the case of any such amendment only to the extent that such amendment permits the Corporation to provide broader indemnification rights than said law permitted the Corporation to provide prior to such amendment), against all expense, liability and loss (including attorney's fees, judgments, fines, ERISA excise taxes or penalties and amounts paid or to be paid in settlement) reasonably incurred or suffered by such person in connection therewith and such indemnification shall continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of his or her heirs, executors and administrators; PROVIDED, HOWEVER, that, except as provided in subsection (b) hereof, the Corporation shall indemnify any such person seeking indemnification in connection with a proceeding (or part thereof) initiated by such person only if such proceeding (or part thereof) was authorized by the Board of Directors of the Corporation. The right to indemnification conferred in this Section shall be a contract right and shall include the right to be paid by the Corporation the expenses incurred in defending any such proceeding in advance of its final disposition; PROVIDED, HOWEVER, that if the Delaware General Corporation Law requires, the payment of such expenses incurred by a director or officer in his or her capacity as a director or officer (and not in any other capacity in which service was or is rendered by such person while a director or officer, including without limitation, service to an employee benefit plan) in advance of the final disposition of a proceeding, shall be made only upon delivery to the Corporation of an undertaking, by or on behalf of such director or officer, to repay all amounts so advanced if it shall ultimately be determined that such director or officer is not entitled to be indemnified under this Section or otherwise. The Corporation may, by action of the Board of Directors, provide indemnification to employees and agents of the Corporation with the same scope and effect as the foregoing indemnification of directors and officers.

(b) If a claim under subsection (a), of this Section 2 is not paid in full by the Corporation within 30 days after a written claim has been received by the Corporation, the claimant may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim and, if successful in whole or in part, the claimant shall be entitled to be paid also the expense of prosecuting such claim. It shall be a defense to any such action (other than an action brought to enforce a claim for expenses incurred in defending any proceeding in advance of its final disposition where the required undertaking, if any is required, has been tendered to the Corporation) that the claimant has not met the standards of conduct which make it permissible under the Delaware General Corporation Law for the Corporation to indemnify the claimant for the amount claimed, but the burden of proving such defense shall be on the Corporation.

Neither the failure of the Corporation (including its Board of Directors, independent legal counsel, or its stockholders) to have made a determination prior to the commencement of such action that indemnification of the claimant is proper in the circumstances because he or she has met the applicable standard of conduct set forth in the Delaware General Corporation Law, nor an actual determination by the Corporation (including its Board of Directors, independent legal counsel, or its stockholders) that the claimant has not met such applicable standard of conduct, shall be a defense to the action or create a presumption that the claimant has not met the applicable standard of conduct.

(c) The right to indemnification and the payment of expenses incurred in defending a proceeding in advance of its final disposition conferred in this Section shall not be exclusive of any other right which any person may have or hereafter acquire under any statute, provision of this Certificate of Incorporation, Bylaw, agreement, vote of stockholders or disinterested directors or otherwise.

(d) The Corporation may maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the Corporation or another corporation, partnership, joint venture, trust or other enterprise against any such expense, liability or loss, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under the Delaware General Corporation Law."

Signed on April 26, 1999.

Re: Nello Tower and Foundation Designs for Kentucky

Dear Mr. Wallack:

This is in response to your inquiry about the design of your towers and foundations being located in Kentucky.

- The tower and foundation designs are reviewed and sealed by a Professional Engineer actively licensed in the State of Kentucky. More specifically, they will be sealed by me (KY PE #21958).
- We use a soil report to design the foundation. The soil report is then referenced in the foundation notes on the tower and foundation drawing.
- The full tower loading and reactions are used for the foundation design. The foundation design reactions are listed on the tower and foundation drawing.

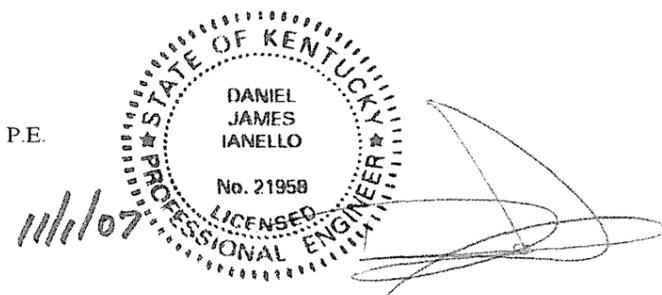

This design criteria will be applied to all of the following sites:

- Camargo – Mount Sterling, Kentucky
- Rinetown – Springfield, Kentucky
- Cartwright Creek – Springfield, Kentucky
- Level Green – Mount Vernon, Kentucky
- Needmore – Danville, Kentucky
- Wolf Creek Dam – Jamestown, KY
- Alpine – Burnside, Kentucky
- Elihu – Somerset, Kentucky
- Burdick – Campbellsville, Kentucky
- Freedom – Jamestown, Kentucky
- Burnside Island – Burnside, KY

If you have any other questions or concerns regarding these projects, please contact me by phone at 574-288-3632 ext. 1225 or by e-mail at dianello@nelloinc.com.

Sincerely,

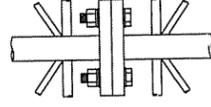

Dan Ianello, P.E.
President

Fax: (674)773-5840

Tower Notes:

1. Tower is designed per TIA/EIA-222-F, "Structural Standards for Steel Antenna Towers and Antenna Supporting Structures," for the following loading conditions:
 - 70 mph fastest-mile basic wind speed with no ice
 - 70 mph fastest-mile basic wind speed with 1/2 inch radial ice with a 25% reduction in wind loading
 - 70 mph fastest-mile basic wind speed with 1/2 inch radial ice and must be verified by others prior to installation.
2. Tower design loading is assumed to be based on site-specific data and must be verified by others prior to installation.
3. Tower design includes the antennas, dishes, and/or lines listed in the appurtenance loading tables on sheet 4.
4. Antenna mounting pipes may need to be field cut to match the lengths listed in the appurtenance loading tables on sheet 4.
5. Tower member design does not include stresses due to erection since erection equipment and procedures are unknown. Tower installation shall be performed by competent and qualified erectors in accordance with TIA/EIA-222-F and OSHA standards and all applicable building codes.
6. Field connections shall be bolted. No field welds shall be allowed unless otherwise noted.
7. Structural bolts shall conform to ASTM A325, except for 1/2 inch diameter and smaller bolts, which shall conform to ASTM A449 or SAE J429 Grade 5.
8. Structural steel and connection bolts shall be galvanized after fabrication in accordance with TIA/EIA-222-F.
9. All high strength bolts shall be tightened to a "snug tight" condition as defined in the November 13, 1995, AISC "Specification for Structural Joints Using ASTM A325 or A490 Bolts."
10. Tower shall be marked and lighted in conformance with local building codes, FAA regulations, and TIA/EIA-222-F.
11. Tower shall be grounded in conformance with local building codes and TIA/EIA-222-F.
12. Allowable tolerance on as-built tower steel height is plus 1% or minus 1/2%.
13. Maintenance and inspection shall be performed over the life of the structure in accordance with TIA/EIA-222-F.
14. Material specifications:
 - NGX Solid Rod Legs - ASTM A572 Grade 50
 - NGX Solid Rod Bracing - ASTM A36
 - NGX Footpads - ASTM A572 Grade 50
15. Guy cable segments should be cut 8% longer than theoretical chord lengths.
16. Guy anchor location and elevations are based on the site plan provided by McKinney Land Surveying, Inc., dated 04/17/2007.
17. Fill any gap between base plate and top of concrete with non-shrink grout before erecting tower.
18. Concrete contractor shall be responsible for properly aligning anchor bolts and materials before and after placing concrete, regardless of whether an anchor bolt template is provided.
19. Transmission lines shall be stacked so that each carrier has no more than 6 lines exposed to the wind. The first three carriers shall be installed on alternate faces so that the lines are equally distributed around the tower.
20. Transmission lines shall be stacked so that each tower face has no more than 6 lines exposed to the wind.

Foundation Notes

1. This foundation has been designed for the following tower reactions.
 Base Down Load: 104.4 kips
 Base Shear Load: 1.0 kips
 Anchor A Uplift: 31.0 kips
 Anchor A Shear: 30.3 kips
 Anchor B Uplift: 31.4 kips
 Anchor B Shear: 30.3 kips
 Anchor C Uplift: 33.4 kips
 Anchor C Shear: 30.3 kips
2. Foundation design based on soil report dated 04/16/2007 by Alt & Witzig Engineering, Inc., of West Chester, Ohio, project number 07CND054.
3. A field inspection shall be performed in order to verify that the actual site soil parameters meet or exceed the assumed soil parameters and that the depth of standard foundations are adequate based on the frost penetration and groundwater depth. Local frost depth must be no deeper than the bottom of the base foundation.
4. Reinforcement shall be deformed and conform to the requirements of ASTM A615 Grade 60 unless otherwise noted. Splices in reinforcement shall not be allowed unless otherwise indicated.
5. Welding is prohibited on reinforcing steel and anchorage.
6. Structural backfill must be compacted in 12" loose lifts to a 97% of maximum dry density at optimum moisture content in accordance with ASTM D698. Backfill must be clean and free of organic and frozen soils and foreign materials. Fill should be compacted at water content within 2 percent of optimum.
7. Foundation designs assume level ground at tower site.
8. Loose material shall be removed from bottom of excavation prior to concrete placement.
9. Concrete cover from exposed surface of concrete to surface of reinforcement shall not be less than 3".
10. Concrete and reinforcement installation must conform to ACI 318, "Building Code Requirements for Structural Concrete."
11. Concrete shall develop a minimum compressive strength of 3000 psi in 28 days.
12. Concrete shall be placed as soon as practical after excavating to avoid disturbance of bearing and side wall surfaces.
13. Concrete contractor shall be responsible for properly aligning anchor bolts and materials before and after placing concrete, regardless of whether an anchor bolt template is provided.
14. Positive drainage shall be maintained during construction and throughout the life of the facility to minimize the potential for surface water infiltration.
15. Due to shallow bedrock difficult excavating should be expected and heavy excavating equipment may be required.
16. Water may be encountered at the soil/rock interface. Water shall be removed by sump pump or other methods prior to placing concrete.
17. Base foundation shall bear on shale or sandstone.
18. Anchors A (east) B (southwest) shall be placed entirely with the sandstone layer. Anchor C (northwest) shall be placed entirely within the shale layer.
19. Anchors may be buried deeper to reduce the length of anchor rod protruding from the ground.

Surveyor Certification
 I hereby certify that the survey depicted by this plat was done under my direct supervision by the method of Random Traverse with side shots and the unadjusted precision ratio of the traverse was 1 / 25,254.50'. This survey is a Class "B" survey and meets the Minimum Standards required by the State of Kentucky as defined by KRS 322.

Michael E. McKinney
 County Surveyor of County

NOTES:

1. GENERAL PROVISIONS

THIS STRUCTURE HAS BEEN DESIGNED BY OTHERS REPORTEDLY IN ACCORDANCE WITH THE GOVERNING PROVISIONS OF IBC, MATERIALS AND SERVICES PROVIDED BY THE CONTRACTOR SHALL CONFORM TO THE ABOVE MENTIONED CODE AND THE CONTRACT SPECIFICATIONS.

THE CONTRACTOR SHALL VISIT THE SITE AND BECOME FAMILIAR WITH THE JOB CONDITIONS AND RESTRICTIONS.

2. STRUCTURAL STEEL

ANGLES ASTM A36
 BOLTS ASTM A325

A. DETAILING, FABRICATION, AND ERECTION SHALL CONFORM TO THE LATEST AISC SPECIFICATIONS.

B. WHEN FORCES ARE NOT SHOWN, THE CONNECTION SHALL DEVELOP 1/2 OF THE ALLOWABLE UNIFORM LOAD AS SPECIFIED IN THE BEAM TABLES OF AISC (ASD). A MINIMUM OF 2 BOLTS SHALL BE USED.

C. FIELD VERIFY ALL CONDITIONS AT AND CONNECTIONS TO THE EXISTING CONSTRUCTION BEFORE FABRICATION.

D. ALL STEEL TO BE GALVANIZED AFTER FABRICATION ASTM 123.

3. FOUNDATION SYSTEM

THE CONTRACTOR SHALL EXERCISE GREAT CARE DURING EXCAVATION. THE CONTRACTOR SHALL PREDETERMINE UTILITY LOCATIONS AND NOTIFY THE ENGINEER IMMEDIATELY IF DEVIATION FROM PLANS EXIST.

A. THE CONTRACTOR IS HEREBY MADE AWARE THAT NO SUBSURFACE REPORT HAS BEEN PERFORMED AT THIS SITE. THE CONTRACTOR SHALL VERIFY ALL EXISTING SITE CONDITIONS, INCLUDING SUBSURFACE CONDITIONS, EMBANKMENT STABILITY, AND ALLOWABLE BEARING CAPACITY. THE CONTRACTOR SHALL OBTAIN PERMISSION OF OWNER VIA SHARED SITES PRIOR TO SITE ENTRY FOR THE PURPOSE OF VERIFICATION OF EXISTING SITE CONDITIONS.

B. THE CONTRACTOR SHALL VERIFY A MINIMUM ALLOWABLE BEARING CAPACITY OF 2000 PSF. IF UNSUITABLE SOILS SUCH AS ORGANIC SOIL, GRANULAR FILL, OR RUBBLE FILL ARE PRESENT THE CONTRACTOR SHALL NOTIFY SHARED SITES IMMEDIATELY FOR FURTHER INSTRUCTIONS ABOUT PLACING CONCRETE.

C. ALL CONCRETE SHALL BE A MINIMUM COMPRESSIVE STRENGTH OF 4000 PSI AT 7 DAYS FOR THE BUILDING FOUNDATION, AND AT 28 DAYS FOR ALL OTHER CONCRETE; VIBRATED; EXECUTED IN ACCORDANCE WITH ACI-318-02 BUILDING CODE REQUIREMENTS FOR REINFORCED CONCRETE; TESTED; AND CONSTRUCTED WITHIN 1/8" OF THE ELEVATIONS SPECIFIED HEREIN. PRIOR TO PLACING ANY CONCRETE, THE CONTRACTOR SHALL SUBMIT A CONCRETE DESIGN MIX TO THE ENGINEER FOR APPROVAL. THE CONTRACTOR SHALL PREPARE AND SUBMIT CONCRETE TEST CYLINDERS FOR TESTING IN ACCORDANCE WITH ASTM C-31 AND C-39, WITH A MINIMUM OF 1 CYLINDER PER FEATURE, MOULDED IN ACCORDANCE WITH ASTM-172. CONTRACTOR SHALL BE RESPONSIBLE FOR TESTING LAB FEES.

D. ALL REINFORCING STEEL SHALL BE TIED, CONFORM TO ASTM-A615/A615M-94 GRADE 60 AND BE DETAILED IN ACCORDANCE WITH ACI-318-02 AND SHALL HAVE MINIMUM COVER OF 3 INCHES, UNLESS NOTED OTHERWISE.

E. RADIO EQUIPMENT: THE GENERAL CONTRACTOR SHALL PROVIDE ALL LABOR, EQUIPMENT, AND MATERIAL FOR THE PROPER LIFTING AND SETTING OF THE RADIO EQUIPMENT FROM THE TRANSPORT TRUCK BED TO THE FINAL POSITION ON THE CONCRETE FOUNDATION. THE EQUIPMENT SHALL BE LIFTED INTO PLACE BY USING A MINIMUM OF FOUR (4) NYLON LIFTING STRAPS. EACH STRAP SHALL BE RATED AT 8,000# EACH.

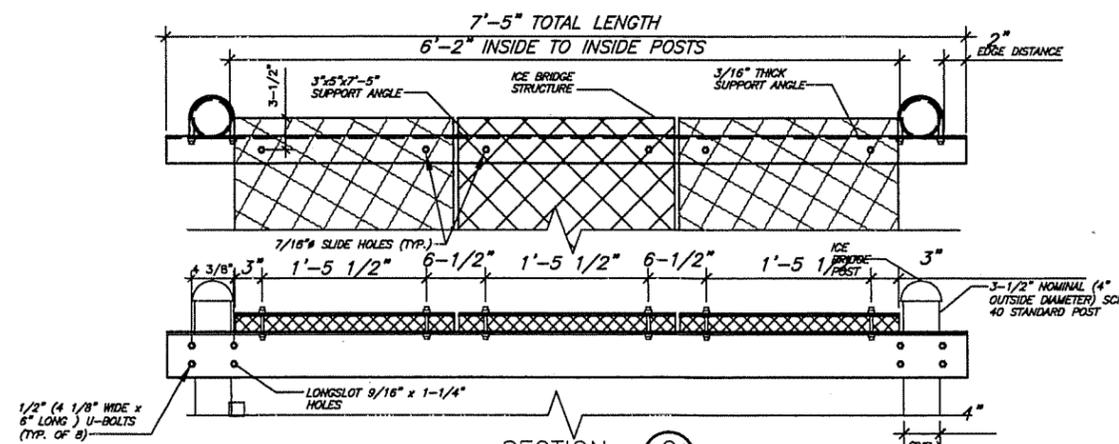

F. CONTRACTOR SHALL VERIFY UTILITY ENTRANCES W/RADIO EQUIPMENT CABINET MANUFACTURER BEFORE POURING FOUNDATION.

4. CONCRETE WORK:

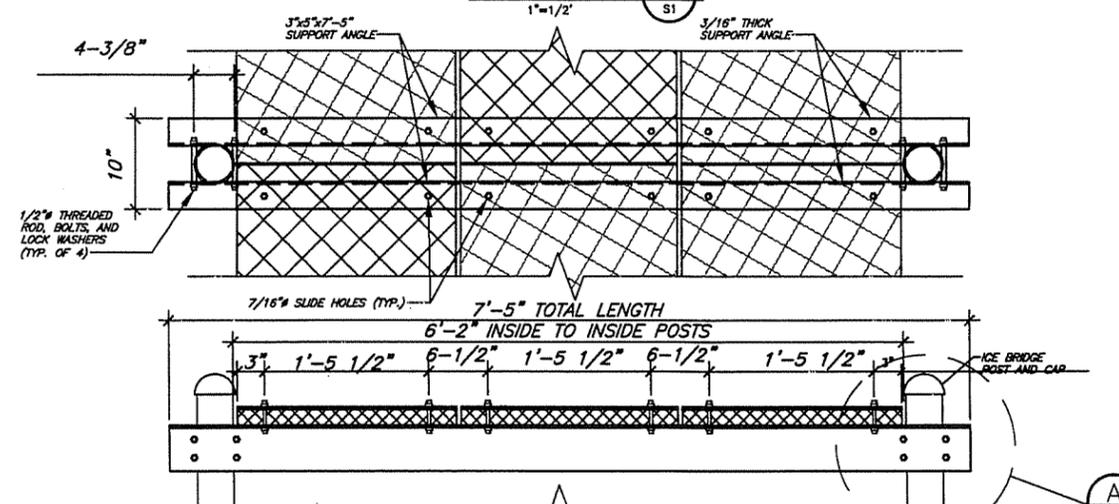

CHAMFER TOP CORNERS OF ALL FOUNDATIONS (3/4")

5. UTILITY PROTECTION SERVICE:

KENTUCKY UNDERGROUND PROTECTION, INC.: 1-800-752-8007
 PRIOR TO ANY DIGGING OR DRILLING.

Wolf Creek Dam

Discussion of site need and configuration

Currently coverage along US-127 falls off in the area as the highway approaches Wolf Creek Dam. The low lying areas along the road compared to surrounding terrain cause calls to be dropped along this frequently traveled route. Coverage in surrounding areas, many of them lower in terrain as well, is not satisfactory and in many cases non-existent.

It was determined that a site near the dam would provide the best view of the low areas while connecting to existing sites to the north and south. An additional benefit is provision of superior service to the working areas around the dam, an important piece of infrastructure, and the lower end of the lake.

Sincerely,

W. Eric Broviak
Regional Rf Engineering Manager

To Whom It May Concern:

In regard to the proposed cellular communications site known as Wolf Creek Dam, this letter will seek to explain co-location issues.

To be able to serve the area, structures in the range of 280 ft above ground level will be required as the terrain in this area varies by over 300 ft from near the proposed location to only 2-3 miles away. According to a survey by our site acquisition team and contractor Shared Tower Sites, there are simply no structures anywhere near this size in the area. Therefore, while it is the policy of Dobson Communications to pursue co-location opportunities wherever possible, there are no opportunities in this area. Thus, the construction of new facilities is the only alternative available.

Sincerely,

W. Eric Broviak
Regional Rf Engineering Manager

**** DETERMINATION OF NO HAZARD TO AIR NAVIGATION ****

The Federal Aviation Administration has conducted an aeronautical study under the provisions of 49 U.S.C., Section 44718 and if applicable Title 14 of the Code of Federal Regulations, part 77, concerning:

Structure:	Antenna Tower Wolf Creek Dam 2
Location:	Jamestown, KY
Latitude:	36-51-35.43N NAD 83
Longitude:	85-09-36.91W
Heights:	290 feet above ground level (AGL) 1312 feet above mean sea level (AMSL)

This aeronautical study revealed that the structure does not exceed obstruction standards and would not be a hazard to air navigation provided the following condition(s), if any, is(are) met:

As a condition to this Determination, the structure is marked and/or lighted in accordance with FAA Advisory circular 70/7460-1 K Change 2, Obstruction Marking and Lighting, 24-hr med-strobes - Chapters 4,6(MIWOL),&12.

This determination is based, in part, on the foregoing description which includes specific coordinates, heights, frequency(ies) and power. Any changes in coordinates, heights, and frequencies or use of greater power will void this determination. Any future construction or alteration, including increase to heights, power, or the addition of other transmitters, requires separate notice to the FAA.

This determination does include temporary construction equipment such as cranes, derricks, etc., which may be used during actual construction of the structure. However, this equipment shall not exceed the overall heights as indicated above. Equipment which has a height greater than the studied structure requires separate notice to the FAA.

This determination concerns the effect of this structure on the safe and efficient use of navigable airspace by aircraft and does not relieve the sponsor of compliance responsibilities relating to any law, ordinance, or regulation of any Federal, State, or local government body.

This aeronautical study included evaluation of a structure that exists at this time. Action will be taken to ensure aeronautical charts are updated to reflect the most current coordinates, elevation and height as indicated in the case description.

A copy of this determination will be forwarded to the Federal Communications Commission if the structure is subject to their licensing authority.

If we can be of further assistance, please contact our office at (817) 838-1995. On any future correspondence concerning this matter, please refer to Aeronautical Study Number 2007-ASO-6809-OE.

RE: Subsurface Investigation &
Foundation Recommendations
Proposed Wolf Creek Dam Tower
Jamestown, Kentucky
Alt & Witzig File: 07CN0313

Gentlemen:

In compliance with your request, we have completed a foundation investigation and evaluation for the above referenced project. It is our pleasure to transmit herewith three (3) copies of our report.

SITELLOCATION:

The site is located in Jamestown, Kentucky. Specifically, this site is located on the north side of US 127. The general vicinity of the site is shown on the enclosed site location map in the appendix of this report.

The purpose of this subsurface investigation was to determine the various soils profile components, determine the engineering characteristics of the materials encountered, and provide information to be used in preparing foundation designs for the proposed communication tower.

Field Services

The field investigation included reconnaissance of the project site, drilling two (2) soil borings for the tower. Other boring locations were inaccessible due to the sloping and wooded nature of the site. Additionally, our investigation included performing standard penetration tests, and obtaining soil samples retained in the standard split-spoon sampler. The apparent groundwater level at the boring location was also determined.

Offices:

Cincinnati, Ohio • Dayton, Ohio
Indianapolis • Evansville • Fort Wayne • Lafayette • South Bend • Terre Haute, Indiana

The soil borings were performed with a conventional drilling rig equipped with a rotary head. Conventional hollow-stem augers were used to advance the holes. Representative samples were obtained employing split-spoon sampling procedures in accordance with ASTM Procedure D-1586.

During the sampling procedure, standard penetration tests were performed at regular intervals to obtain the standard penetration value of the soil. The standard penetration value is defined as the number of blows of a 140-pound hammer, falling thirty (30) inches, required to advance the split-spoon sampler one (1) foot into the soil. The results of the standard penetration tests indicate the relative density and comparative consistency of the soils, and thereby provide a basis for estimating the relative strength and compressibility of the soil profile components.

In addition samples of the bedrock materials were obtained using rock coring procedures in general accordance with ASTM D-2113. The equipment used to obtain the cores was a conventional "NX" double tube core barrel system with a diamond-cutting bit.

Laboratory Testing

The types of soils encountered in the borings were visually classified and are described in detail on the boring logs. Representative samples of the soils encountered in the field were placed in sample jars and are now stored in our laboratory. Unless notified to the contrary, all samples will be disposed of after three (3) months.

Recommendations for Tower

Information provided by Shared Towers, LLC indicates that a guyed cellular tower will be constructed at this site. It is anticipated that the tower will not exceed 300 feet in height. It is anticipated that the structural loads of the tower will be supported by conventional spread footings.

Our borings encountered medium stiff silty clay and weathered sandstone to a depth of three to three and one-half (3½) feet below grade. At this depth the borings encountered auger refusal on apparent limestone bedrock. A rock core was performed from 3 to 8 feet and from 8 feet to 13 feet at boring B-4, the center of the proposed tower. The rock cores indicated hard limestone. Recovery for the cores was 77% to 92% with a Rock Quality Designation (RQD) of 53% to 83% for each 5 foot core. This qualifies as fair to good quality bedrock.

The following soil parameters can be used to design a shallow foundation. Due to the seasonal variations in moisture content and freeze thaw cycles, no skin friction or resistance to passive pressure should be considered above three (3) feet.

Boring B-3 and B-4							
Soil Description	Depth Below Existing Grade	Bearing Pressure (psf) SF=3	Dry Density (pcf)	ϕ	K_p	Coefficient of Friction Against Sliding	Cohesion (psf)
Limestone	4' +	30,000	130	42°	5.0	0.7	2000

It is assumed that similar soil conditions will be encountered at other guy anchor locations. If differing soil conditions are noted the soil engineer should be contacted for further recommendations.

It is anticipated that removal of this rock will be difficult and blasting could be required for removal of the bedrock at this site. Therefore, rock anchors will be required for the footings. Rock anchors should be installed in accordance with Manufacturer's specifications. Each bolt shall be tested by jacking the rock bolt to the required tension and be pre-tensioned in accordance with the manufacturer's specifications after the anchor is installed and prior to grouting.

Groundwater should be anticipated at the soil/rock interface. All borings indicated dry conditions during and upon completion of operations. Also, depending upon the weather conditions while excavations are open, seepage from surface runoff may occur into shallow excavations. Since these foundation materials tend to soften when exposed to free water, every effort should be made to keep the excavations dry should water be encountered.

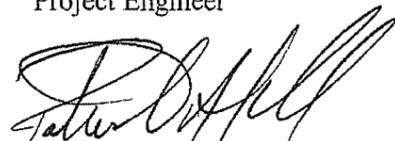

If we can give further service in these matters, please contact us at your convenience.

Respectfully Submitted,

ALT & WITZIG ENGINEERING, INC.

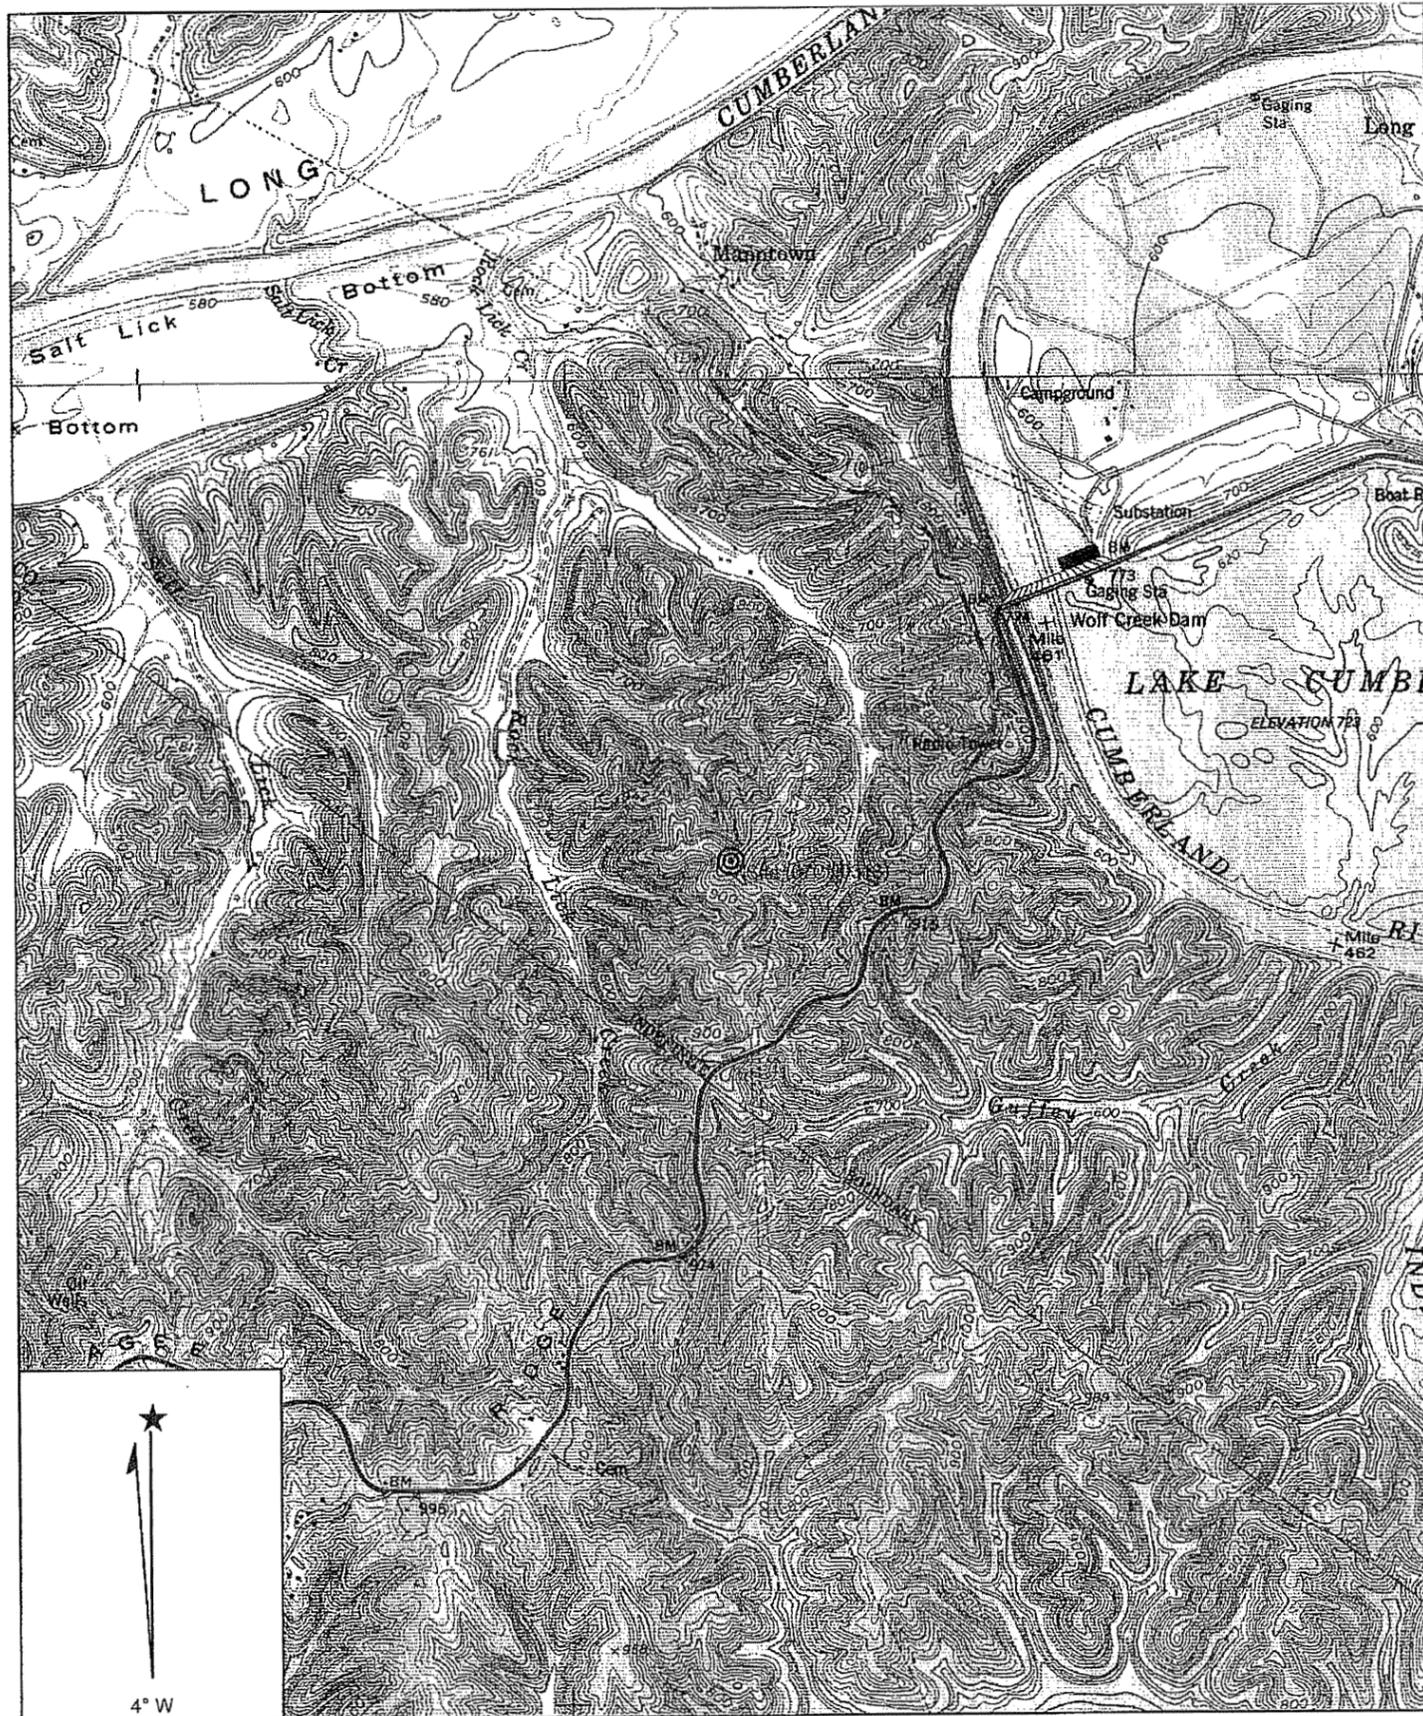

Robert Smith, P.E.
 Project Engineer

Patrick A. Knoll, P.E.

COPY OF REAL ESTATE AGREEMENT

SITE LEASE AGREEMENT

Site I. D.: Wolf Creek Dam County: Russell Site Address: Rt 127, Jamestown, Kentucky, 42629

1. Premises and Use. In consideration of the expenditures and efforts of lessee to develop and use the premises described below, the undersigned (jointly and severally, the "Owner") hereby leases to Shared Towers, LLC, a West Virginia limited liability company ("Lessee"), or its permitted assignee, the site described below:

The exclusive right to use and occupy real property, approximately 10,000 square feet of land, as approximately described and shown on Exhibit A, together with non-exclusive easements (a) to a public right of way, for reasonable access, (b) to the appropriate sources of electric and telephone facilities as determined by Lessee, (c) for placement of any supporting guyed wires as reasonably determined by Lessee per good engineering practices (d) to meet fall-zone or set back requirements and (e) temporary staging area for equipment and assembly during construction (collectively, the "Site"). The Site will be used for installing, maintaining and/or operating, a wireless communications and broadcast facility, including, without limitation, antenna towers or poles, guyed wires (if applicable), foundations, utility lines, equipment shelters, ice bridges, radio equipment, antennas, security alarms, cameras, lights, and supporting equipment thereto (collectively, the "Facility"), or for any other use permitted by applicable law. Title to the Facility shall be held by Lessee and the Facility shall remain Lessee's personal property and in no event shall be construed as fixtures.

2. Term. The term of this Agreement (the "Initial Term") is five (5) years, starting on the date Lessee signs this Agreement. This Agreement will be automatically renewed for ten (10) additional terms (each a "Renewal Term") of five years each with a [redacted] increase in rent at each renewal, unless Lessee provides Owner notice of intention not to renew 90 days prior to the expiration of any term.

3. Rent. Beginning with the date upon which construction of the Facility is completed, rent will be paid quarterly, on the first day of each calendar quarter, at the rate of \$ [redacted] per quarter, partial months to be prorated.

4. Title, Quiet Possession, and Access. Owner represents and agrees (a) that it is the owner of the Site pursuant to the instrument set forth on Exhibit A; (b) that the Site is free from all encumbrances except as set forth on Exhibit A, (c) that it has the right to enter into this Agreement; (d) that the person signing this Agreement has the authority to sign; (e) that Lessee, its employees, agents, subcontractors, clients, and invitees are entitled to access to the Site at all times and to the quiet possession of the Site so long as Lessee is not in default beyond the expiration of any cure period; and (f) that Owner will not have unsupervised access to the Site or to the related Facility. Owner further represents, agrees and covenants that during the Initial Term and Renewal Terms of this Agreement Owner will not use, or permit others to use, any part of any real

property currently owned, or hereafter acquired, by Owner within two (2) miles of the Site for any type of communication or broadcast tower or otherwise provide advice, services for development of competing properties or release any information about Lessee's business. Owner shall obtain non-disturbance, subordination and attornment agreement from prior lien holders as required by Lessee's title insurance company.

5. Assignment/Subletting. Either party may assign or transfer this Agreement with notice to the other party. Upon delivery of such notice the transferor will have no further liability under the Agreement. Lessee shall be allowed to sublet, or otherwise grant use rights to all or any portion of the Site and/or the Facility without the prior written consent of Owner, it being the express intention of Lessee to lease or license antenna, towers, shelters, and related space of the Facility to separate wireless communication carriers and other clients.

6. Improvements. Lessee may make such future improvements on or to the Site and Facility as it deems necessary. Owner agrees to cooperate with Lessee with respect to obtaining any required building/zoning approvals for the Site and improvements. Upon termination or expiration of this Agreement, Lessee shall remove the Facility and its other property located upon the Site, excepting the foundation, and will restore the Site to substantially the condition existing at inception of this lease, except for ordinary wear and tear and casualty loss. Lessee shall reimburse Owner any property tax increases directly attributable to Lessee's improvements. Owner shall fully cooperate with Lessee in any available administrative or court appeals of such tax increases.

7. Compliance with Laws. Owner represents that Owner's property (including the Site), and all improvements located thereon, are in substantial compliance with building, life/safety, disability and other laws, codes and regulations of applicable governmental authorities. Lessee will substantially comply with all applicable laws relating to its possession and use of the Site.

8. Utilities. Lessee will pay for all utility connections to the Site. Owner will cooperate with Lessee in Lessee's efforts to obtain utilities from the most economical source.

9. Termination. Lessee may terminate this Agreement at any time by notice to Owner without further liability, if Lessee does not obtain all permits or other approvals (collectively, "approval") required from any municipal and/or governmental authority or any easements required from any third party to construct/operate the Facility for its intended use, or if any such approval is canceled, expires or is withdrawn or terminated, or if Owner fails to have proper ownership of the Site or authority to enter into this Agreement, or if Lessee, for any other reason,

CJP HOA
AJA
BY
HEA
EWA
JA
CA PJ DJT
RSP

in its sole discretion, determines that it will be unable to use the Site for its intended purpose.

10. **Default.** If either party is in default under this Agreement for a period thirty (30) days following receipt of notice from the non-defaulting party shall have the right to pursue all legal remedies including termination of this Agreement. If a non-monetary default may not reasonably be cured within a thirty (30) day period, this Agreement may not be terminated if the defaulting party commences action to cure the default within such 30 day period and said default is substantially cured within ninety (90) days of the initial notice of default
11. **Indemnity.** Owner and Lessee each indemnify the other against and hold the other harmless from any and all costs (including reasonable attorneys' fees) and claims of liability or loss which arise out of the use and/or occupancy of the Site or Facility by the direct actions or culpable omissions of the indemnifying party, its employees, agents or independent contractors. This indemnity does not apply to any claims arising from the sole negligence or intentional misconduct or omission of the party seeking indemnification.
12. **Hazardous Substances.** Owner represents that it has no knowledge of any substance, ground contamination, chemical or waste (collectively, "substance") on the Site that is identified as hazardous, toxic or dangerous in any applicable federal, state or local law or regulation. Lessee will not introduce or use any such substance on the Site in violation of any applicable law. Owner shall indemnify Lessee against and hold it harmless from any and all costs (including reasonable attorneys' fees) and claims of liability or loss which arise out of any occurrence or condition causing the presence of any such substance on the Site that occurred prior to the date of this Agreement or is directly attributable to the Owner's use of adjoining premises during the term of this agreement.
13. **Waiver of Owner's Lien.** (a) Owner waives any lien rights it may have concerning the Facility, which is deemed Lessee's personal property and not fixtures, and Lessee has the right to remove the same at any time without Owner's consent. Owner (i) disclaims any interest, now or in the future, in and to the

Facility, as fixtures or otherwise; (ii) agrees that the Facility and the leasehold or other use interest of Lessee or its authorized sub lessees or users, shall be exempt from execution, foreclosure, sale, levy, attachment, or distress for any rent due or to become due. and (iii) agrees to provide any such lender with an estoppel statement regarding the above facts, such as the lack of a default hereunder, and any other information or document reasonably requested, such as a non-disturbance, subordination and attornment agreement, within five (5) days of request.

14. **Insurance.** Lessee, at its sole cost and expense, shall upon commencement of construction (upon use of mechanical equipment to disturb the land, but not for taking of soil samples or surveys and measurements) procure and maintain bodily injury and property insurance on the Facility with a combined single limit of at least One Million Dollars (\$1,000,000) per occurrence. A copy of such policy shall be furnished to Owner within 30 days of written request.
15. **Miscellaneous.** (a) This Agreement applies to and binds the heirs, successors, executors, administrators and assigns of the parties to this Agreement; (b) This Agreement is governed by the laws of the State in which the Site is located; (c) This Agreement (including the Exhibits) constitutes the entire agreement between the parties and supersedes all prior agreements; any amendments to this Agreement must be executed by both parties; (e) If any provision of this Agreement is invalid or unenforceable with respect to any party, the remainder of this Agreement, will not be affected and shall remain valid and enforceable to the extent permitted by law; (f) The prevailing party in any action or proceeding in court is entitled to receive its reasonable attorneys' fees and other reasonable enforcement (or, as applicable, defense) costs and expenses; (g) Owner agrees promptly to execute and deliver to Lessee, simultaneously herewith or forthwith hereafter, a recordable Memorandum of this Agreement in the form of Exhibit B; and (h) All notices are effective, on the third business day after their deposit via certified and postage prepaid mail, or, on the next business day after deposit via overnight delivery, to the address below.

A. The Owners certify that they, as well as other property owners in the vicinity of the Leased Site, have a historic right of way across the lands currently owned by Keaton (Russell County Registry of Deeds, Book/Page: 126/93, 122/181, etc.) as approximately shown in exhibit A. This right of way has been used to access the Antle property from Rt 127, including the Leased Site, at least since 1864 or earlier as a vehicular access road, and it has been maintained by the various property owners in a cooperative fashion over a long period of time without any known written documentation.

B. Herry Antle is hereby appointed as agent for the Owners to administer this lease, including signature on plans, utility easements, any county required documents, and to negotiate and make any and all future amendments, renewals, or corrections as may be required of the Owners. Any document signed by him/her shall be binding on the Owners. The Owners may appoint someone else or revoke this authority by a notice to tenant in writing signed by all the Owners.

C. All payments under the lease shall be distributed according to each Owner's percentage of ownership.

This Site Lease Agreement is the complete agreement of the parties, replacing any prior written or verbal agreements.

RE: Public Notice – Kentucky Public Service Commission
Docket No.: 2007-00483

Dear Sir or Madam:

Shared Sites, LLC and American Cellular Corporation are making application to the Kentucky Public Service Commission (PSC) for a Certificate of Public Convenience and Necessity to construct and operate a new facility to provide wireless communication services. The facility will include a 280-foot tower with appurtenances attached to a maximum height of 290 feet, and a ground level equipment shelter(s) to be located at Hwy 127; Jamestown, KY 42629. This notice is being sent to you because you own property within a 500' radius of the proposed tower or own property which adjoins the property on which the tower is proposed.

The Kentucky Public Service Commission invites your comments regarding the proposed construction. You also have the right to intervene in this matter. Your initial communication to the PSC must be received by the PSC within 20 days of the date of the Postal cancellation on the envelope this letter was received in. Your comments and request for intervention should be addressed to: Executive Director's Office, Public Service Commission of Kentucky, 211 Sower Boulevard, Post Office Box 615, Frankfort, KY 40602-0615. Please refer to Docket No.: 2007-00483 in your correspondence.

Please feel free to contact David Jantzi at 315-376-3333, if you have any questions.

Sincerely,

David B. Jantzi

Dear Sir or Madam:

Shared Sites, LLC and American Cellular Corporation are making application to the Kentucky Public Service Commission (PSC) for a Certificate of Public Convenience and Necessity to construct and operate a new facility to provide wireless communication services. The facility will include a 280-foot tower with appurtenances attached to a maximum height of 290 feet, and a ground level equipment shelter(s) to be located at Hwy 127; Jamestown, KY 42629. This notice is being sent to you because you own property within a 500' radius of the proposed tower or own property which adjoins the property on which the tower is proposed.

The Kentucky Public Service Commission invites your comments regarding the proposed construction. You also have the right to intervene in this matter. Your initial communication to the PSC must be received by the PSC within 20 days of the date of the Postal cancellation on the envelope this letter was received in. Your comments and request for intervention should be addressed to: Executive Director's Office, Public Service Commission of Kentucky, 211 Sower Boulevard, Post Office Box 615, Frankfort, KY 40602-0615. Please refer to Docket No.: 2007-00483 in your correspondence.

Please feel free to contact David Jantzi at 315-376-3333, if you have any questions.

Sincerely,

David B. Jantzi
